

ASPIRATEUR INDUSTRIEL pour PROCESS

Les aspirateurs de la gamme KF sont des aspirateurs polyvalents, adaptés à l'aspiration de tous types de poussières.

Ces aspirateurs sont insonorisés et équipés d'une unité aspirante triphasée sans entretien, permettant une aspiration 24 h/24.

Le KF30PM.386B est également doté de filtres hygiéniques de grande surface et est déclinable en version ATEX afin de travailler dans des atmosphères explosives. Équipé d'un système d'ensachage liner continu, il permet une collecte des poussières sans aucun contact entre l'opérateur et les produits aspirés, y compris les substances potentiellement dangereuses.

Les principales applications des aspirateurs KF sont : les machines d'usinage de précision et d'assemblage, les machines de conditionnement, ainsi que les secteurs de la production alimentaire, cosmétique et pharmaceutique.
